ORGANIZATION PROFILE

ABOUT US

Binti Salha Foundation (BSF) is a Non Government Organiization established in 2017 and registered in 2019 by Ministry of Health, Community Development, Elderly and Children of Tanzania under the Non Governmental Organisations Act, 2002 with registration number 00NGO/R/0596. BSF is a humanitarian, girl child-centered, development organisation, without religious, political or governmental affiliation.

The organisation aims at advocating for Adolescent girl and young Women"s rights to education, Health and Livelihood by ensuring that these rights are given to all human beings regardless of their gender and age.

The organization also focuses on young women"s access to economic opportunities, decent work as well as un paid care work as part of inclusive economic and livelihood opportunities for young women in rural and urban areas.BSF works at grass roots levels with girl children, young women, families and communities to bring about long-term sustainable development.

OUR TARGET GROUP

In and out of school Adolescent girls and young women (AGYW)

YOUNG WOMEN
AGED 16-25

ADOLESCENT GIRLS
AGED 10-15

WHAT WE DO

BSF implements programs and initiatives that improve access to quality education, promote sexual and reproductive health and rights (SRHR), advance gender equality, and strengthen economic opportunities for women and young people. Through advocacy, community engagement, capacity building, research, and skills development, we empower adolescent girls and young women to make informed decisions, realize their full potential, and contribute meaningfully to their communities. We also work to prevent gender-based violence, support vulnerable populations, and influence policies that promote social justice and sustainable development.

GOOD HEALTH AND WELL BEING

Binti Salha Foundation is committed to improving the health and well-being of adolescent girls, young women, and communities by promoting access to accurate, youth-friendly health information and services. We focus on Sexual and Reproductive Health and Rights (SRHR), menstrual health management, prevention of gender-based violence, and mental well being.

Through community dialogues, awareness campaigns, anti-stigma initiatives, youth engagement platforms, and advocacy programs, we empower individuals to make informed health decisions, challenge harmful social norms, and access essential health services. Our interventions contribute to healthier communities where women and girls can live with dignity, safety, and improved well-being

QUALITY EDUCATION

Binti Salha Foundation believes that education is a powerful tool for transforming lives and breaking cycles of poverty. We work to increase access to quality and inclusive education for vulnerable children, adolescent girls, and young women, particularly those facing social and economic barriers.
Through educational support programs, advocacy campaigns, school-based initiatives, and community engagement, we promote school retention, re-entry opportunities, and access to learning materials. We also provide life skills education and awareness programs that equip young people with the knowledge and confidence needed to succeed academically and personally.

GENDER EQUALITY

Binti Salha Foundation promotes gender equality by empowering women and girls to exercise their rights, participate in decision-making processes, and reach their full potential. We work to address harmful gender norms, discrimination, intimate partner violence, child marriage, and other forms of gender-based violence that hinder the advancement of women and girls.
Through advocacy, community sensitization, leadership development, and engagement with community leaders and stakeholders, we foster environments where women and girls are respected, protected, and provided with equal opportunities to thrive socially, economically, and politically.

DECENT WORK AND ECONOMIC GROWTH

Binti Salha Foundation supports economic empowerment initiatives that enhance livelihoods and promote financial independence among young women, single mothers, and vulnerable groups. Through vocational skills training, entrepreneurship development, financial literacy, and income-generating activities, we equip beneficiaries with practical skills to secure sustainable sources of income. Programs such as tailoring and reusable sanitary pad production provide opportunities for young women to build businesses, create employment, and contribute to local economic growth. By strengthening economic resilience and promoting decent work opportunities, we help individuals achieve self-reliance and improve their quality of life.
